

Please DO NOT consider allowing passenger use of cell phones and other two way devices in flight onboard aircraft. Since Sept. 11th airlines and the US government have been trying to keep our aircraft as safe as possible. The use of two way devices inflight would enable terrorist an affective way to hijack and endanger passengers and crew. Please help us keep the airlines as safe as possible!

Thank you,  
Krista Truscott  
Flight Attendant  
Alaska Airlines
